

Meet *Oncodesign* at the 2008 EACR Annual Meeting in Lyon July 5 to 8, 2008

Dear Collaborator,

Our Business Development Managers, Marc Thevenin-Lemoine and Arnold van der Luit, will be present at the 2008 EACR Annual Meeting. They will be delighted to discuss ways by which *Oncodesign* may assist you in your preclinical development program.

This meeting presents an ideal opportunity to:

1) Learn more about XenoScreen®: our unique service that has been co-developed with Charles River designed for a fast-track in vivo screening of anticancer drugs.

Meetings can be arranged at the Charles Rivers Booth # A 10.

2) Visit our posters that are related to our imaging expertise.

Presented Posters by *Oncodesign*:

- **Evaluation of tumor response to carmustine and sorafenib with magnetic resonance imaging in orthotopic human glioblastoma models xenografted for *nude* rats.**

Abstract # 420

Monday, July 7th from 8:00 AM to 17:30 PM

Poster Session - *Translational Research 1*

Forum Room 2 on level -1 of the congress centre

- **Evaluation of early response of human glioma tumors in *nude* rats to temozolomide and radiotherapy using magnetic resonance and proton magnetic resonance spectroscopy.**

Abstract #423

Monday, July 7th from 8:00 AM to 17:30 PM

Poster Session - *Translational Research 1*

Forum Room 2 on level -1 of the congress centre

Sincerely,

The *Oncodesign* Team
